The high-resolution structure of the SH 2 domain of SH 2B1

further reveals conformationally plastic protein loops that may contribute to the ability of the protein to recognize dissimilar ligands.

### **Ascension Of The Sands**

Had he remained longer in slavery--had he fretted under bonds until the ripening of manhood and its passions, until the drear agony of slave-wife and slave-children had been piled upon his already bitter experiences--then, not only would his own history have had another termination, but the drama of American slavery would have been essentially varied; for I cannot resist the belief, that the boy who learned to read and write as he did, who taught his fellow slaves these precious acquirements as he did, who plotted for their mutual escape as he did, would, when a man at bay, strike a blow which would make slavery reel and stagger.
