The vegan group was allowed to eat until fullness, but the control group had to restrict calories. However, calorie for calorie, vegan diets are not more effective for weight loss than other diets. Other benefits: Plant-based diets are linked to a reduced risk of heart disease, type 2 diabetes, and premature death. Limiting processed meat may also reduce your risk of Alzheimer's disease and dying from heart disease or cancer. The downside: Because vegan diets eliminate animal foods completely, they may be low in several nutrients including vitamin B12, vitamin D, iodine, iron, calcium, zinc, and omega-3 fatty acids. Low-carb diets have been popular for decades - especially for weight loss.
